

Kylie Fowler

Collins Center

Harrisonburg, VA

The Collins Center is a sexual assault response and advocacy agency that serves Rockingham, Warren, and Page Counties, the City of Harrisonburg, and surrounding communities. The Collins Center provides forensic interviews, family advocacy and case-management to victims, survivors, and their families, such as crisis support, counseling, education, and prevention. The Collins Center collaborates with community partners in a Multi-Disciplinary Team (MDT) including Department of Social Services, law enforcement, and the Office of the Commonwealth Attorney.

As a BSW at the Collins Center, I will participate in all of these service areas and gain practical skills and valuable knowledge in applying trauma-informed practice.
